CORAL REEF & NATURAL RESOURCES INITIATIVE
(includes Invasive Species)

Catalog of Federal Domestic Assistance (CFDA) Number: 15.875

FISCAL YEAR 2020 APPLICATION INSTRUCTIONS

I. Program Description

The Office of Insular Affairs (OIA) is requesting proposals for Fiscal Year 2020 for its Coral Reef & Natural Resources (CRNR) Initiative. The CRNR Initiative provides grant funding for management and protection of coral reefs and to combat invasive species in the U.S. insular areas. The goal of the CRNR Initiative is to improve the health of coral reef ecosystems and other natural resources in the U.S. insular areas for their long-term economic and social benefit. Priority will be given to projects that help the insular areas address a variety of threats to coral reef ecosystems and to **eradicating** aquatic and terrestrial plant, insect, and animal invasive species.

The U.S. insular areas include the United States territories of the Virgin Islands, Guam, the Commonwealth of the Mariana Islands, and American Samoa, as well as the independent Freely Associated States of the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau.

II. Eligible Applicants

Applications for 2020 funding are encouraged and will be considered from insular government entities, educational institutions, or non-profit organizations in the four U.S. territories or three freely associated states, in accordance with 2 CFR 200.

III. Award Information

The total amount of funding for this program this year is not yet known. The period of performance for the majority of projects funded under this initiative is 12 to 36 months. Project proposals must be designed accordingly. Past and present recipients of awards under this

initiative are eligible but must submit new proposals to compete for funding each year unless multi-year funding has been awarded.

a. Review and Selection Process

All eligible Coral Reef & Natural Resources Initiative grant applications will be reviewed and evaluated using criteria shown in the next section. Recommendations from the merit review will be made to the Assistant Secretary for Insular and International Affairs for final project selection. Scores will be provided to the applicant if requested.

In order to comply with the new financial assistance regulations, 2 CFR 200 "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards," past performance information will be considered during the selection process.

b. Evaluation Criteria and Merit Review

All eligible Coral Reef & Natural Resources Initiative grant applications will be evaluated and scored using the following five criteria. An application's score will be based upon the point scale (total of 100 points) shown in the left column of each item and the guidelines listed in the right column:

Criterion A. –PROJECT NEED (Problem Statement and Desired Outcome):	
Ai. A critical problem exists and needs to be addressed. Weight 15%	
15	The application clearly identifies a critical problem within one or more of the islands under OIA jurisdiction. Project is urgently needed to address the problem and fits within CRNR's goal to improve the health of coral reef ecosystems and combat invasive species in the U.S. insular areas for their long-term economic and social benefit.
7	The problem is critical, but the problem does not need to be addressed within this grant period.
1	Although there is a problem, it is not critical.
Aii. The desired outcome is identified and the project directly addresses the critical problem with an appropriate solution. Weight 15%	
15	The desired outcome is clearly identified and the proposed project directly addresses and significantly improves the critical problem identified in Ai. with an appropriate solution.
7	The desired outcome is identified and the proposed project adequately addresses the critical problem identified in Ai. with an appropriate solution.
1	The proposed project only minimally addresses the critical problem.
Aiii. The project aligns with one or more of the Office of Insular Affairs' CRNR priorities listed in the announcement. Weight 20%	
20	For invasive species related projects, the proposed project actually eradicates an invasive species. For coral projects, the proposed project is a concrete rather than abstract project.
10	The proposed project strongly aligns with one of the priorities.

1	The proposed project minimally aligns with one of the priorities.
---	---

Criterion B. –PROJECT FEASIBILITY (The applicant has the ability to successfully complete the project)	
Bi. The Project budget is reasonable. Weight 10%	
10	The grant application budget is comprehensive and well detailed. All budget items are allowable, reasonable, and directly relevant to the project. The budget reflects competitive sourcing and reasonable cost comparisons.
5	The grant application budget presents basic information, although there are some questions and possible inadequacies in terms of appropriateness, technical soundness, and application.
1	The grant application budget minimally presents basic information. Some budget items may not be appropriate and there are major questions regarding technical soundness and applicability.
Bii. The project timeline is reasonable. Weight 10%	
10	The grant application timeline is reasonable, comprehensive and well detailed. It can be completed within the 3-year timeframe for CRNR grants.
5	The grant application presents a timeline with general appropriateness, although it is less detailed and there are some questions or concerns regarding the proposed project length.
1	The grant application presents a timeline that minimally presents basic information.
Biii. If the applicant is a previous OIA grantee, their prior performance was acceptable. If not a previous OIA grantee, then the responses to the financial questions for new grantees in Section IV(B)(9) of this application document were acceptable. Weight 10%	
10	For New Grantee: Answers to financial questions are all affirmative. For Existing Grantee: Prior performance and submission of financial and narrative reports was excellent, always on time and accurate.
5	For New Grantee: Answers to more than half of the financial questions are affirmative. For Existing Grantee: Prior performance and submission of financial and narrative reports was moderate, sometimes late.
1	For New Grantee: Less than half of the financial questions are affirmative. For Existing Grantee: Prior performance and submission of financial and narrative reports was problematic. Reports were not timely and/or adequate.

Criterion C. –PROJECT SUPPORT	
Ci. The project has support and/or participation from major stakeholders and local government officials. Weight 10%	
10	The project has very strong support from stakeholders, the public, Congress, and local government and the proposal includes numerous letters of support from key partners and supporters.
5	Letters of support have been submitted, and the proposal demonstrates that there will be local government involvement in the project.
1	The project will have little, if any, support.

Criterion D. –PROJECT IMPACT	
Di. The applicant has the organizational resources necessary to successfully implement the proposed work plan AND has experience working in the Insular Area(s) in which they propose to work. Weight 10%	
10	The organization has extensive experience both in the proposed field of work AND in working within the proposed Insular area(s).
5	The organization has some experience working in the proposed field of work AND some experience working in the proposed Insular Area(s).
1	The organization has either little experience working in the proposed field OR little experience working in the proposed Insular Area(s).
